- Industry Monitor (1 x annually)
- End user insights residential

* Are you active on the Dutch solar market as an EPC company, instaler, wholesale distributor or mounting system manufacturer? You can become a data supplier. As a data supplier we will ask you to complete an online survey of 10 minutes twice a year. In this survey we will ask amongst others: the number of installed or sold products, your expectations for the coming years, and insights on prices.

Custom made insights? That is possible.

Are you looking for specific insights which are not part of the Dutch Solar Quarterly? Or do you like to receive one specific publication?
